## *Holiday Giving Back Campaign*

Noble launched a 2020 *Holiday Giving Back Campaign* where team members were invited to nominate worthy organizations that support our local communities and/or were close to their hearts. Noble committed \$50,000 to the campaign and has selected 5 organizations to receive \$10,000 each.

### *Our third recipient is United Way Leeds & Grenville!*

**United Way Leeds & Grenville** was nominated by our Brockville branch team and has been supporting the local community since 1957. They strive to be a critical community convenor that mobilizes local and national partners including business, not-for-profit organizations, labour, community leaders, and government and community residents to create opportunities for a better life for everyone in our communities.

In 2019, United Way Leeds & Grenville helped 1 in 4 people in the community – approximately 25,000 of the most vulnerable. They generally support 20+ agencies but during COVID were able to help 34 community agencies. United Way focuses on three key pillars 1) Poverty to Possibility; 2) Kids Be all they Can Be; and 3) Healthy & Strong Communities. In 2020, their key focus was to support systemic changes to improve the community and included: Food Insecurity, Mental Health & Homelessness.
